SUMMARY

Frontend-focused Full-Stack Developer with 1+ year of experience building high-performance, scalable UIs with React.js and Next.js. Skilled in component architecture, real-time data visualization, animation, and responsive design. Shipped production frontends for government infrastructure (Indian Railways) and U.S. housing platforms.

CORE SKILLS

Languages: JavaScript (ES6+), TypeScript, Python

Frontend: React.js, Next.js, Tailwind CSS, Ant Design, Material-UI, Framer Motion, GraphQL, Responsive Web Design, Component Architecture

Backend & APIs: Node.js, Express.js, NestJS, REST APIs, GraphQL APIs, Server-Sent Events (SSE)

Databases: MongoDB, PostgreSQL, InfluxDB (time-series), Firebase

Cloud & DevOps: AWS S3, GitHub Actions (CI/CD), Docker

Tools: Git, GitHub, VS Code, Postman

EXPERIENCE

Creware Technology Pvt. Limited

Bangalore, India

Full-Stack Web Developer (Frontend Focus)

Jan. 2025 – Present

- Developed and maintained production-grade frontend interfaces using React.js and Next.js, serving 5,000+ daily active users.
- Designed and built 5+ modular UI features (General Bills, Customer Management, Vendor Module, Dashboard, All Transactions) using reusable component architecture.
- Built the frontend for an internal analytics dashboard – interactive charts, data visualization, and RESTful integration – cutting manual reporting effort.
- Integrated real-time push notifications on the client via event-driven architecture (SSE/WebSockets), increasing session engagement.
- Collaborated directly with clients to translate requirements into production-ready, user-centric UI features.
- Set up CI/CD pipelines using GitHub Actions for automated frontend build validation and deployment.

PROJECTS

Wincerro | *Next.js, NestJS, Strapi, PostgreSQL, JWT*

Jun. 2026 – Present

- Built the Next.js frontend for a multi-role fitness and community platform where Wincerrians, Coaches, and Organisers manage profiles, activity logs, classes, events, and challenges.
- Implemented phone OTP authentication flows and JWT-based session handling on the client, integrating with NestJS and Strapi v5 APIs.
- Delivered onboarding, dashboard, activity tracking, achievements, explore, and notification UI, including FCM push notifications.

NEI – IoT Monitor System | *React, SSE, Framer Motion, Ant Design*

Jan. 2026 – Apr. 2026

- Built a real-time sensor data visualization frontend for Indian Railways, rendering live updates from 100+ sensor nodes with sub-second latency via Server-Sent Events.
- Built interactive real-time graphs and dashboards with Framer Motion and Ant Design, handling 1,00,000+ data points/min; cut re-renders via debouncing and memoization.

Big Island Housing | *Next.js, Tailwind CSS, AWS S3, WebSockets*

Jul. 2025 – Dec. 2025

- Built frontend modules for a property management and rental platform supporting 10,000+ concurrent users, including image/document upload UI backed by AWS S3 (files up to 50MB).
- Built a WebSocket-based real-time chat and notification UI, cutting message delivery time to under 200ms.

Bahikhata – Business Accounting Platform | *React, Next.js, Tailwind CSS*

Jan. 2025 – Mar. 2025

- Built the React/Next.js frontend for a multi-user business accounting platform with role-based UI and JWT-authenticated session handling.

EDUCATION

Masai School

Bengaluru, India

Full-Stack Web Development Program

Nov. 2023 – Jun. 2024

Moradabad Institute of Technology

Moradabad, UP

Bachelor of Technology (B.Tech)

Jul. 2017 – Jun. 2022
